While no woman is entirely free from periodic suffering, it does not seem to be the plan of nature that women should suffer so severely. Irregularities and pain are positive evidence that something is wrong which should be set right or it will lead to serious derangement of the

Dear Sir:—I am in receipt of your favor of the 7th inst., and in answer will say that I visited the Dr. C. F. Simmons ranch in Atascosa County, will say that I visited the Dr. C. F. Simmons ranch in Atascosa County, Texas, on February 6th, 1907. I spent all day the 9th, and stayed all night at the Brown ranch, then rode all day the 10th over the ranch, making two full days of hard riding on horseback over this ranch.

I met Mr. Franks at Pleasanton. He has been foreman on this ranch for 18 years, and knows every foot of the land. I told him I wanted to see the poorest land on the ranch, and he directed me how to go, and after two days hard riding I was fully satisfied with the proposition.

I saw three artesian wells, and was within three-quarters of a mile of the fourth one. I tasted the water at one of these wells and found it to be all right. It was very warm, as I understand all artesian water is when it first comes from the well. I am satisfied this well is furnishing enough water to irrigate 1,000 acres of land. It is in Headquarters posture.

I found the soil to be from a heavy black to a dark red, and all the shades between black and red. In fact, the soil looked good to me, and I believe I know good land when I see it.

I have read carefully the printed folders and examined the little book, "New Home Sweet Home" with regard to the pictures printed in it, and will say they are all there just as natural as life.

While I did not get to see all over the ranch, I saw enough to satisfy me that it is all right. I saw the country from San Antonio via Corpus me that it is all right.
